

**CALIFORNIA  
CONSERVATION  
GENOMICS  
PROJECT**

---

## Dear CCGP Investigators,

It has been almost a year since the first round of CCGP awards were distributed. This past year has been challenging on so many fronts, and we understand that there have been delays in getting into the field and into the lab. However, we would like to get a sense of each project's overall progress towards completing sample collection and whole genome resequencing.

Please fill out [this brief survey](#), which should take approximately 10-20 minutes depending on the number of genera in your project(s).

Primary PIs or a lead project member should complete this survey by **8am on April 12, 2021**.

For PIs with multiple projects: please submit a progress report for each project.

Thank you for your participation and please don't hesitate to reach out with any questions.

Best,

The CCGP Team
